

NEW TRAINING AVAILABLE ON DATA COLLECTION AND LTC TREND TRACKER FOR ASSISTED LIVING

Data to support the quality of care and services provided in ALFs is becoming increasingly important. As such, AHCA/NCAL has launched this month the [“Data Collection and LTC Trend Tracker for Assisted Living” training](#). This training will review:

- What data storytelling is
- How to incorporate data storytelling into the narrative about your organization
- The importance of data tracking, trending, and utilization for continuous improvement opportunities

LTC Trend Tracker is the platform to help you accomplish data storytelling and quality improvement efforts. This training will review how to upload data, run reports, and download charts and graphs to use in your data storytelling. [Registration](#) is free for all NCAL members.
